Program Eligibility & Guidelines

- Rebate(s) apply to upgrades on existing homes only. New construction does not qualify.
- Installations required by Title 24 codes and standards are not eligible for rebate(s).
- Air conditioning and heat pump rebates are based on the Air Conditioning, Heating and Refrigeration Institute (AHRI) certificate rated cooling capacity (1 Ton = 12,000 Btuh).
- To calculate the tonnage of your system, obtain the cooling capacity in Btuh, found on AHRI, and divide that number by 12,000.
- Seasonal Energy Efficiency Rating/2 (SEER/2), Energy Efficiency Ratio/2 (EER/2), and Heating Seasonal Performance Factor/2 (HSPF/2) represent the efficiency ratings.
- The rebate is based on the cooling capacity of the AHRI certificate for the qualifying equipment ie: 45000 btuh/12000 = 3.75 ton.
- For questions regarding City of Lompoc specifications, call (805) 875-8018.

Upon signing this agreement, the customer acknowledges the following:

The City of Lompoc (City) reserves the right to inspect completed work and installed energy efficient upgrade(s). Rebate(s) will be paid only on work that meets City specifications. Customers certify that they are familiar with, and agree to, the standards regarding this program. City disclaims any warranty, whether expressed or implied, for any materials or labor associated with installation, maintenance, repair, or any energy savings associated with use. City will not accept any liability resulting from participation in this program. This rebate offer may be changed or discontinued at any time by City. Rebate will be issued as a credit to the customer's City of Lompoc utility account. If the customer's City of Lompoc utility account has an outstanding balance, the rebate will be applied to the account balance.

I understand the above and certify that I am a customer of City, that the energy efficient upgrade(s) are installed and operating at the location indicated and that this address is within City service territory.
